

WebFeat™

MetaSearching Made Easy

WebFeat offers libraries remarkable metasearch technology that simultaneously searches databases and Web-based information using one intuitive interface. With WebFeat, your users can search across all databases: bibliographic, OPAC-based, proprietary, government sources, and others.

WebFeat will search free or subscription-based databases, along with Z39.50, SQL, Web, and most proprietary databases formats. Users can easily perform searches directly from your library or school district's home page.

WebFeat Express: the Affordable Solution

With WebFeat Express, the power of the world's most popular metasearch solution is no longer out of reach for budget-conscious libraries and schools. WebFeat Express delivers the most feature-rich metasearch solution, combined with a next-generation administration console that dramatically reduces the resources required to build and maintain your metasearch system.

Fast Configuration

Traditional metasearch engines may take time to configure. WebFeat Express can be configured quickly – in as little as one hour! WebFeat Express is also easy to configure and to maintain.

WebFeat Express offers the WebFeat Administrative Console (WAC) with Menu Manager. With WAC, administrators can quickly and easily add and delete databases and subject categories, configure authentication, and customize user interfaces. WAC is compatible with virtually all databases, catalogs, and authentication protocols.

New Features

The latest version of WebFeat Express offers a Menu Manager for integrated search portal and e-resources management, spell check, built in thesauri, and topic clustering.

SMART™ Usage Tracker

SMART is WebFeat's next generation usage tracker, enabling you to report detailed database usage within your library with just a few mouse clicks. SMART is an invaluable tool that enables you to monitor database usage, assess use of your costly subscription databases, and understand your patron needs even more. SMART is included with WebFeat Custom, and is an optional add-on for WebFeat Express.

Use WebFeat with:

YouSeeMore™

WebFeat integrates with TLC's YouSeeMore. Not only can your patrons enjoy the advantages of TLC's YouSeeMore portal – like enriched content and more – they can search the library's databases via the one, intuitive interface of WebFeat.

For more information, contact TLC at 1.800.325.7759.
